

# Web DS1200

MIDCOM Data Technologies

Interactive Digital Signage Kiosks  
One Integrated Display

## Key Features:

- Elegant all-in-one, space saving design; easy to mount
- Fan-less, high performance operation
- Infrared (IR) touch screen
- High contrast LCD panel with wide viewing angle
- Low power consumption
- Web-enabled software for remote display management
- Web-enabled, centralized content management and distribution software
- Remote player monitoring, control, and upgrade

The Web Signage System's DS1200 offers an integrated computing display in a single, mountable package. Ideal for digital signage and kiosk applications, this elegant all-in-one system can be remotely managed. A Windows operating system offers a platform compatible with numerous software applications. This fully integrated solution of hardware and software, with touch screen options, facilitates efficient deployments. Bring dynamic interaction to your audience with the flexible DS1200, the future of interactive signage.

## Specifications:

<b>Display</b>	12" TFT LCD, 50,000 hours lamp life
<b>Display Resolution</b>	Up to 1024 x 768
<b>Processor</b>	1.5 GHz x86 processor
<b>Memory (RAM)</b>	1GB
<b>Operating Systems</b>	Windows® XP Embedded
<b>Storage</b>	2GB, 4GB, 8GB or 16GB flash module; 2.5" SATA HDD
<b>Display Enclosure</b>	ABS + PC Plastic
<b>Base or Pedestal</b>	Optional: Detachable aluminum construction; VESA- compliant mounting
<b>Control Buttons</b>	Power (1) and Programmable (4)
<b>Input/ Output Ports</b>	1 Serial port, 1 Video-in RCA jack, 1 S-Video input port, 2 USB 2.0 ports, RJ45 connector for Ethernet, 1 Audio-out jack, 1 Microphone-in jack, 1 Line-in jack, and 1 DC-in jack
<b>Stereo speakers</b>	Built-in speakers
<b>Network Interface</b>	Ethernet 10/100 MB Base-T LAN; 802.11a/b/g WLAN
<b>AC/DC adapter</b>	Input voltage 100~240V AC, 50/60 Hz Output: 18.5V, 3.5A

<b>Power Cords</b>	North America, EU, UK, China
<b>Dimensions (H x W x D)</b>	9.09 x 12.1 x 2.51 in, 231 x 309 x 64 mm
<b>Weight</b>	4 kg; 8.8 lbs
<b>Regulatory</b>	FCC Class B, CE, UL, C-Tick, RoHS compliant
<b>Operating Temperature</b>	0°C - 40°C
<b>Humidity</b>	0% - 90% non-condensing

## Applications:

The DS1200 signage system is ideal for the following applications:

- Kiosk
- Retail
- Entertainment/ Gaming
- Education
- Manufacturing
- Finance
- Healthcare
- Hospitality
- Control and Monitoring

## Web Content Manager

Web Content Manager software is one of the primary components in the comprehensive Web Signage System. This web-enabled server software provides central management of Web signage appliances as media players, and automates the design and distribution of a wide variety of multimedia file formats into playlists. Playlists are then set into schedules and stored in a central database for distribution to the network of signage appliances. With the Web Content Manager, the message to be played is assembled, scheduled, and delivered for dynamic playback over a network of appliances using standard file formats and protocols.

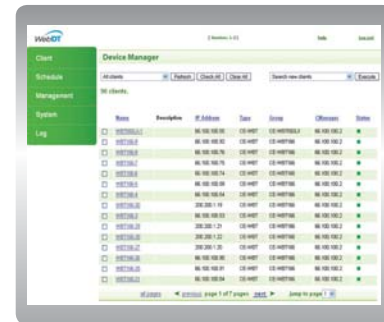

### Feature Highlights:

- Groups and Players
- Multiple-zones
- Scheduling
- Reporting
- Media Management
- Preset Templates
- Urgent Casts
- Auto Recovery
- Ticker
- Playlists
- System Management

## Web Device Manager

Web Device Manager is a comprehensive software management tool to remotely manage networked Web appliances. It provides a web browser interface fronting a database management system which supports—e.g., inventory, organize, control, update — a network of Web signage appliances over the LAN, WAN, or wireless networks. The Web Device Manager utilizes “push and pull” technology to interact with remote appliances, allowing system administrators to inventory hardware, update applications and registry entries, shutdown/reboot/wake-up devices, update system firmware and software, along with access to advanced logging and scheduling capabilities.

### Feature Highlights:

- Client Inventory
- Group Management
- Image Management
- Database Support
- History and Job Manager
- Appliance Shutdown
- File Package
- BIOS Management
- Scheduling
- WakeOnLan

## Major Options

- Built-in 802.11a/b/g WLAN
- IR touch screen
