

L1524 AND L1024 IMAGING SOLUTIONS

PROTECT YOUR PRINTER INVESTMENT

No matter what the project, insist on the exacting quality of Genuine Printronix Laser Supplies. L1524 and L1024 supplies are designed and manufactured for maximum productivity of Printronix LaserLine printer systems. And, we ensure they meet the full operational requirements of the Printronix printing systems.

THE RIGHT IMAGING SOLUTIONS FOR YOUR APPLICATION

Printronix conducts extensive development and testing of toner and other supplies used in Printronix laser system printers. That's why you can be assured that Genuine Printronix Laser Supplies will produce the level of print density, consistency and cost effectiveness required for efficient and error-free printing.

You can benefit from our research investment, because we make the following carefully tested supplies available to you.

Toner: It's a critical component of your laser printing system. Everything on the page image depends on the quality of the toner. In fact, so do the other LaserLine printer supplies.

OPC Drum: Precisely transfers toner to the page.

Developer: Controls how much toner is transferred.

Fuser: Finishes the page image by permanently fusing the toner.

L1000 SERIES PRINTER APPLICATIONS

Typical Text Printing Applications

- Data processing reports
- Inventory reports
- Invoices
- Packing slips
- Parts listings
- Pick lists

Typical Bar Code Printing Applications

- Broadcast labels
- Point-of-sale labels
- Product labels
- Shelf labels
- Shipping labels
- Wide range of bar coded labels and tags

L1524 AND L1024 IMAGING SOLUTIONS

TONER KIT		
PART NUMBER	YIELD	CONTENTS
704539-006	16,000 pages*	2 toner bottles, 2 waste toner bottles, 2 fuser felt wipers
