Protecting Your Printer Investment

No matter what the project, demand the exacting quality of Genuine Printronix Ribbons. We specially design and manufacture our ribbons to optimize your printer's performance. And, we ensure they meet the full operational requirements of the Printronix printing systems for which they were designed.

We're the recognized world leader of impact printing technology. That's why you can be assured that Genuine Printronix Ribbons will produce the level of density, consistency and cost effectiveness required for efficient and error-free printing.

Genuine Printronix Ribbons:

- Provide consistent quality and performance to significantly reduce the cost of printer system ownership.
- Provide the highest level of consistent print density, bar code grade and character yield possible from ribbon to ribbon and box to box.
- Reduce equipment wear and maintenance and reduce unnecessary operator intervention.
- Provide your printing operation with maximum print quality and operational effectiveness while protecting the value of your printer investment.

The Right Ribbon for the Right Application

Printronix offers ribbons in ink formulations and ribbon lengths to match your application and printer.

We have ribbons designed to provide optimum life in report printing or text printing applications.

We have ribbons designed for bar code or Optical Character Recognition (OCR) printing applications, to provide the highest contrast and best scanning results.

The Printronix Guarantee

Each Genuine Printronix Ribbon is unconditionally guaranteed to meet or exceed the requirements of your most demanding applications.

Extended Life Test Ribbon

Applications

Best for report printing or text printing applications

Ordering Part Numbers

Extended Life Text Ribbon

60 Yard Ribbon — 107675-001 6 per box

100 Yard Ribbon — 107675-007 6 per box

Yield - (at contrast ratio of 0.20)

60 Yard Ribbon

30 Million Characters

100 Yard Ribbon

50 Million Characters

Ink Characteristics

Type - Text

Color - Black

Drying Characteristics - All printed images are dry to the touch as they emerge from the printer and will not run, streak or smear.

Bar Code Ribbon

Applications

Best for bar code and Optical Character Recognition (OCR) printing applications

Ordering Part Numbers

Bar Code/OCR Ribbon

60 Yard Ribbon — 107675-005 6 per box

100 Yard Ribbon — 107675-008 6 per box

Yield - (bar code printing contrast ratio of 0.75)

60 Yard Ribbon

2800 AIAG labels (visible light)

1500 AIAG labels (IR scanning)

100 Yard Ribbon

4667 AIAG labels (visible light)

2500 AIAG labels (IR scanning)

Yield - (text printing at contrast ratio of 0.20)

60 Yard Ribbon

27 Million Characters

100 Yard Ribbon

45 Million Characters

Ink Characteristics

Type - Bar Code/OCR

Color - Black

Drying Characteristics - All printed images are dry to the touch as they emerge from the printer and will not run, streak or smear.

Genuine Advantages

Ribbon Fabric

All Genuine Printronix Ribbons are optimized for the dynamics of the Printronix print mechanism. Ribbons are constructed from a woven nylon fabric with fused edges to eliminate ribbon fraying and build-up of fiber debris in the print station.

Reversing Mechanism

Genuine Printronix Ribbons use a 14" long conductive leader to indicate the ends of the ribbon. The leader is heat set for reliability and is optimized for the end-of-ribbon reversing electronics and mechanics of the Printronix printer.

Ribbon Spool

Easy mount ribbon spools are compatible with all Printronix line matrix printer models.

Storage Life

Genuine Printronix Ribbons have a functional shelf life of a minimum of one (1) year when stored in their original, unopened packaging at a temperature below 80° F.

Packaging

Individual Ribbons - Each Genuine Printronix Ribbon is packaged in a clear, sealed bag, which minimizes evaporation and degradation of the ink or ribbon fabric.

Six Pack Packaging - Packaged six (6) ribbons per box with six (6) cleaning towelettes and plastic gloves for "clean hands" ribbon changes.
